AMUSEMENT NOTES.

"The Girl From Rector's" at Barre Opera House Saturday, Aug. 20.

Theatre goers are anticipating with a emerkable show of interest the forthcoming production in this city of "The Girl from Rector's," which run over three hundred nights at Weber's music hall, New York. All box office records were broken during the engagement and the run might have continued indefinitely were it not for the necessity of filling out of town contracts that had been previously made. "The Girl from Rector's," is declared

by the metropolitan critics to be one of the funniest of high class productions made there in many years. The plot deals with the actions of a young society woman of Battle Creek, Mich., who is charitably inclined. She spends most of her time in her own circle at home, but her husband, a judge at the court of Shanghai is away for such long periode she decides to go to New York for recreation and rest. She is attracted by the giaring lights at Rector's and there she makes her headquarters. In the course of time she carns the sobriquet of "The Girl from Rector's."
